# EXPLORER 23

HD

EXPLORER 23 chartplotter + multi-function controller is the perfect mate for the professional fishermen or for high-tech dashboard lovers. Control on any HDMI display:

- **Chartplotter**
- **Fish finder***
- **Any connected NMEA0183 and NMEA2000 compatible device*** such as AIS, autopilot, engine, etc.

Tough and reliable
The **back-lit keyboard** is easy to use even with gloves and in any condition. The optional remote control gives and extra hand, for example to quickly save marks during your activity.

HDMI Video output
EXPLORER 23 is compatible with any HDMI display to provide an HD resolution experience!

NMEA0183 & 2000
EXPLORER 23 is extremely versatile as it comes with two NMEA0183 serial ports and one NMEA2000 port to connect any compatible device such as AIS, autopilot, engine, etc.
Configure your desired view
Beside choosing any display size, you can also configure the multi-vision layout with fish finder, map and data boxes: full page or split page, with no data, one or two rows of data.

Customize the function keys
With EXPLORER 23, you can configure the four functional keys with your desired function shortcuts, for the top used commands.

Never miss a thing
Browse the **Fish Finder history** up to 5 minutes (when connected to a fish finder) and, if you find anything interesting, place a mark on it!
With the Cursor Box smart function, point the cursor on map to instantly view distance and bearing.

* Not included

EXPLORER 23
